### DETAILED ACTION

- I. Rejection of claims 10 and 11 under 35 USC 112, 1<sup>st</sup> paragraph will not be maintained in light of amendment filed 4/28/06 for reason as follows. Applicant has replace "alkinyl" by "alknyl". Applicant refers to USPN 6960580 will discloses that the terms are interchangeable.
- II. Rejection of claims 12,17 under 35 USC 112, 2<sup>nd</sup> paragraph will not be maintained in light of amendment filed 4/28/06 for reason as follows. The term "aromatic group" has been deleted from the claims.
- III. Rejection of claims 13,18 under 35 USC 112, 2<sup>nd</sup> paragraph will not be maintained in light of amendment filed 4/28/06 for reason as follows. The term "aromatic group" has been deleted from the claims. Applicant explains that antecedent basis is provided for the functional groups.

Applicant's arguments filed 4/28/06 have been fully considered but they are not persuasive. See arguments below.

- IV. Rejection of claims 12-14,17-19 under 35 USC 103(a) as being obvious over Howell et al (US 3444169) will be maintained in light of amendment filed 4/28/06 for reason on record and reason as follows.

Applicant argues: Howell 1) disclose tranquilizers instead of pesticides and that the tranquilizer in Howell would not be expected to act as pesticides of the instant claims; 2) does not provide motivation to select the claimed species. Examiner argues that in a claim to a compound / composition a statement of intended use has no patentable significance. In addition, Examiner argues that Howell does

Art Unit: 1616

provide ample motivation to make the compounds of the instant claims since Howell teaches the core and suggests the substituents to be attached to the core through Markush language. See 103(a) rejection 1/31/06.

V. Rejection of claims 12,13,15,17,18,20 under 35 USC 103(a) as being obvious over Schmutz et al (US 3539573) and claims 16,21 under 35 USC 103(a) as being obvious over Schmutz et al (US 3389139) will be maintained in light of amendment filed 4/28/06 for reason on record and reason as follows.

1) Schmutz discloses analgesics, antihistamines, etc. (pharmaceuticals) instead of pesticides and that the analgesics, antihistamines (pharmaceuticals) in Schmutz would not be expected to act as pesticides of the instant claims; 2) Schmutz discloses preferred compounds where substituents are in the 3 or 8 position rather than in both positions as instantly claimed. For this reason Schmutz does not provide motivation to select the claimed species. Examiner argues that in a claim to a compound / composition a statement of intended use has no patentable significance. In addition, Examiner argues that Schmutz does provide ample motivation to make the compounds of the instant claims since Schmutz suggests the compounds through Markush language. Note preferred compounds in a reference does not disclosed all compounds suggested by the reference. A reference is not required to exemplify all possible examples to be relied upon as prior art.

VI. Allowable Subject Matter

Art Unit: 1616

Claims 10 and 11 are allowable. The prior art does not teach or suggest a method of using instant compounds as a pesticide.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
